

# Factors that affect patients' use of electronic personal health records

By

Alaa Abd-Alrazaq

# The study impact

## ▶ Practical impact:

- Healthcare providers (general practices): to develop the suitable policies, strategies, interventions, and outreach programs.
- PHRs vendors/developers: to tailor the PHR features and functionalities.
- Policymakers: to develop organisational and public policies.

## ▶ Academic impact:

- Improving the understanding of the issue.
- Producing a model that can be used in different contexts.

Thank you for listening

Any quest
